

Wind Power Generators

Complete Wind Power Systems

The AIR-X and AIR Industrial turbines by Southwest Windpower produce reliable electricity for battery charging even in the most extreme weather conditions. Generating 12, 24, or 48 VDC, these 400 watt turbines are an excellent match for telecom systems, offshore platforms, and remote monitoring systems. Powder coated body, stainless steel hardware, no required maintenance, and 3 year standard warranty makes the AIR Industrial perfect for remote installations. Simple to install on a 1.5" pipe, the turbine connects directly to the battery bank. To create a custom wind/solar hybrid system, please call for assistance.

Item# Qty/Uom	Manufacturer P/N / Warranty	Description Enclosure Type	Wt. (lbs) Wgt. (kg.)
 461372	SunWize Technologies Inc. AIR-LX-1 3 year	AIR-X 400 watt 12VDC wind generator.	25.00 11.36
 472351	SunWize Technologies Inc. AIR-LX-2 3 year	AIR-X 400 watt 24VDC wind generator.	25.00 11.36
