

## Customized Rack Assemblies

**Clean-up your projects!** Let MECA create integrated assemblies with any of our standard RF/Microwave products on 19" panels or shelves at a fraction of the time and cost.

Our experienced Applications & Mechanical Engineers take your initial concepts (verbal, Visio or hand drawn sketches) and promptly provide a Quote and AutoCAD drawing for your review. MECA operates a world-class, in-house CNC machining center, so most **customized rack assemblies can ship in 3-4 weeks ARO** including customized painting with your company's logo. We can also supply the cables and adapters!
